Technologies: Zustand, Styled Components, Azure
Technologies: Next.js, Chakra UI, Tailwind Css, Material UI

EXPERIENCE

Omnibiz -omnipay

Frontend Developer

Lagos

June 2022 - Present

- Spearheaded the development of a comprehensive web payment dashboard for users, enabling users and businesses to monitor wallet balances, track transaction histories, and efficiently manage user accounts.
- Implemented responsive design principles, resulting in a seamless and accessible interface across various devices, enhancing user experience and engagement.
- Integrated data visualization tools to enhance the representation of financial metrics, providing users with a clearer understanding of their financial activities.
- Collaborated cross-functionally with backend developers to ensure seamless integration of frontend and backend components, leading to a robust and cohesive system.
- Conducted user feedback sessions and implemented iterative improvements, resulting in a 15% increase in user satisfaction and adoption.
- Pioneered the development of a seamless payment service within the web dashboard, allowing users to make both single and bulk withdrawals from their wallets with ease.
- Implemented a user-friendly interface for withdrawal processes, reducing friction and enhancing the overall user experience.
- Integrated real-time transaction status updates, providing users with immediate visibility into the progress of their withdrawals.
- Collaborated closely with backend teams to ensure secure and efficient communication between the frontend and backend components of the withdrawal feature.
- Optimized order payment workflows within the OmniPay app, leading to a 30% increase in user engagement and satisfaction.
- Collaborated with Senior Developers in development of a comprehensive dashboard for loan management, resulting in a 25% increase in efficiency in processing loan applications.
- Designed and implemented an intuitive user interface for the repossession module, reducing processing time by 20% and improving task accuracy.
- Optimized the frontend for payment services, contributing to a 20% improvement in user engagement and transaction completion.
- Collaborated with backend developers to integrate real-time data updates, ensuring accurate and up-to-date information on loan status.
- Led the development of a robust support and customer service dashboard, improving user interactions and issue resolution for OmniPay's payment services.
- Implemented intuitive features on the support dashboard, resulting in a 20% reduction in response time and a 15% increase in customer satisfaction.
- Supported the optimization of the POS (Point of Sale) interface, contributing to a 30% increase in sign-ups for new OmniPay agents.
- Aided in the development of a web application dedicated to tracking POS deliveries, improving transparency in the delivery process.

Zuri.Internship

Frontend Developer Intern

Lagos

August 2021 - December 2021

- Developed accessible, responsive, and feature-rich user interfaces using React.js and various styling modules such as Styled Components and Material UI.
- Engineered the user experience for retrieving, parsing, and formatting analytical data, seamlessly integrating it into React components.
- Collaborated closely with frontend engineers, backend developers, and UI/UX designers through pair programming sessions, offering valuable insights related to design and user experience.
- Contributed significantly to the development of the Goal Plugin, enhancing team productivity by enabling goal setting within a collaborative environment.

Hng Internship

Web Developer Intern

Remote

June 2020 - September 2020

- Worked collaboratively with UI/UX designers, frontend developers, and backend developers to construct, test, and enhance visually appealing user interfaces for client websites.
- Translated designs and wireframes into high-quality code using HTML, CSS, and JavaScript.
- Applied advanced debugging skills to review, refine, and optimize code, improving overall functionality and user experience of web applications.

EDUCATION

University of Ibadan

B.ed

Ibadan

Sept 2011 - Dec 2015

ACHIEVEMENTS

Payment Processing

OmniPay

Contributed significantly to OmniPay's historic achievement as part of a collaborative team effort: Played a key role in the team's collective effort, resulting in an 8% growth in transaction business for September, with collections surpassing N 54 billion and payments exceeding N 53 billion.

Oct 2023

Retailers Lending:

Collaborated effectively to achieve a remarkable 20% business growth by processing 1,044 loans in September, totaling N 72 million, showcasing the team's strong financial expertise.

Oct 2023

Wholesaler Lending

Integral part of the team's success, driving a remarkable 100% growth in business by processing 235 loans in September, amounting to an impressive N 1.05 billion, highlighting the team's proficiency in managing and expanding lending portfolios.

Oct 2023

HNG finalist 2021

Zuri.Internship

implemented User Interface and User Functionality On an Open Source messaging app project - www.zuri.chat
